

# Synology drive - vaš privatni oblak

Instalacija na računalo i podešavanje dijeljene mape sa servera – sinkronizacija podataka korak po korak...

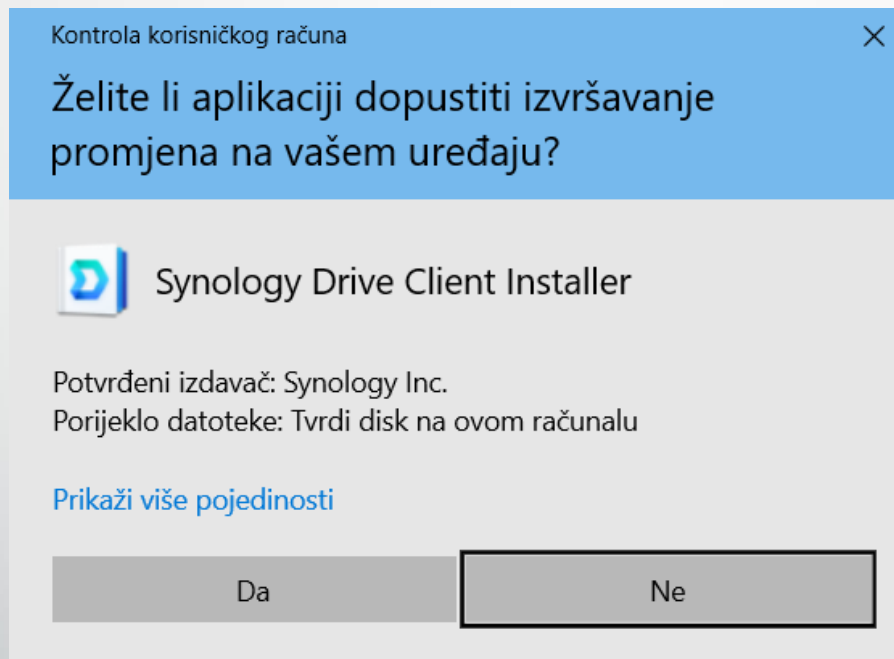

# Preuzimanje programa

- Program Synology Drive preuzmite sa [ove poveznice](#) – pod Preuzimanje
  - Spremite na lokalno računalo (obično pod Preuzimanja – Downloads) i pokrenite

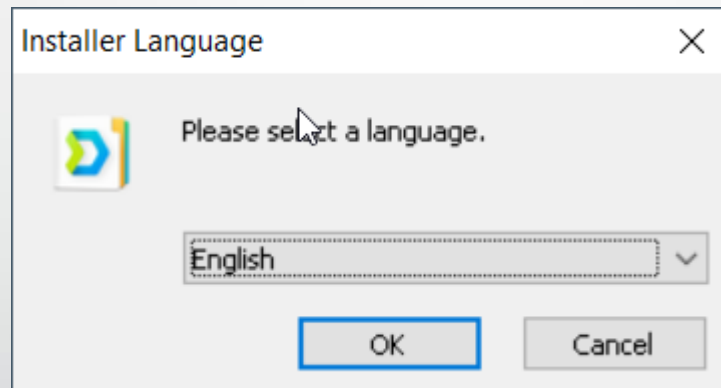

(c) www.sokoli.hr, 2020.

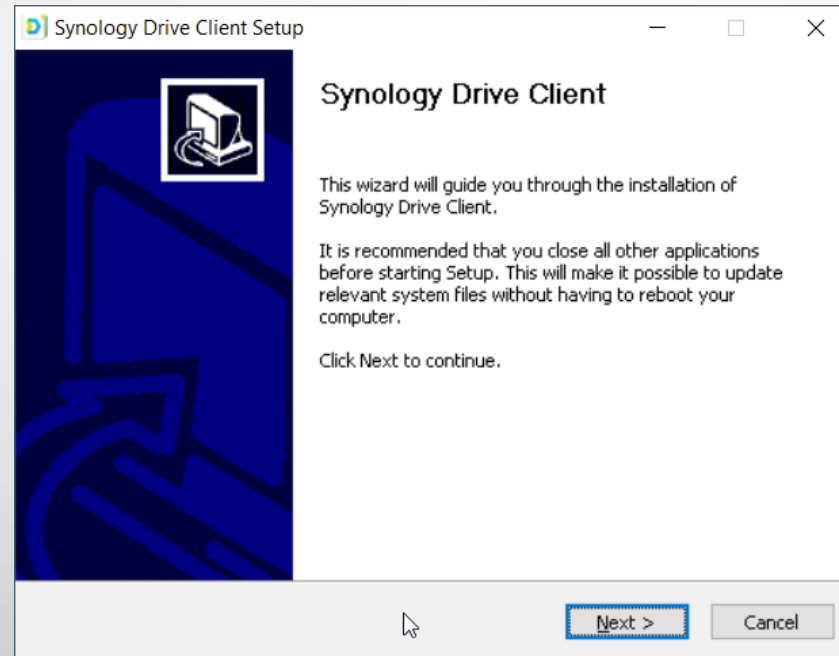

# Pokrenite program, potvrdite sa Da

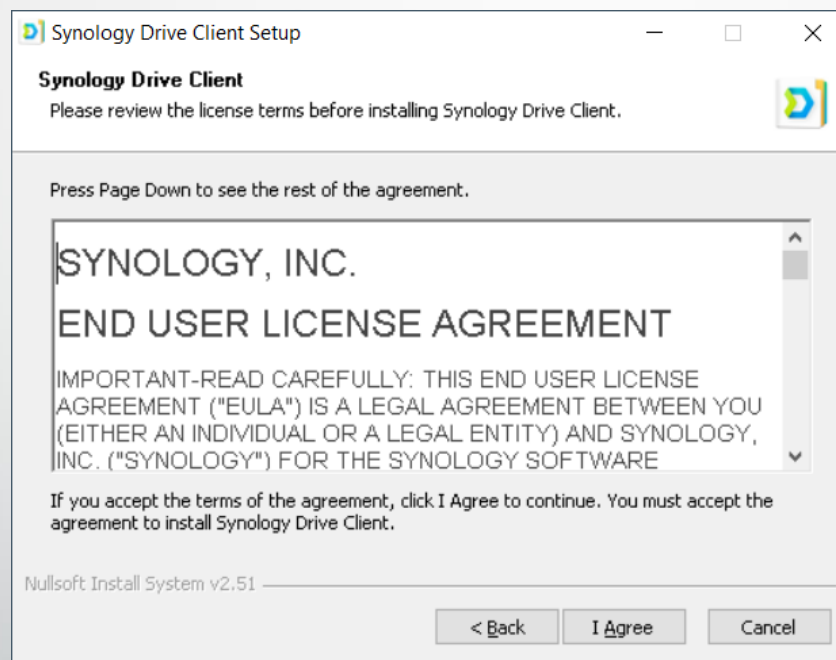

# Potvrdite jezik

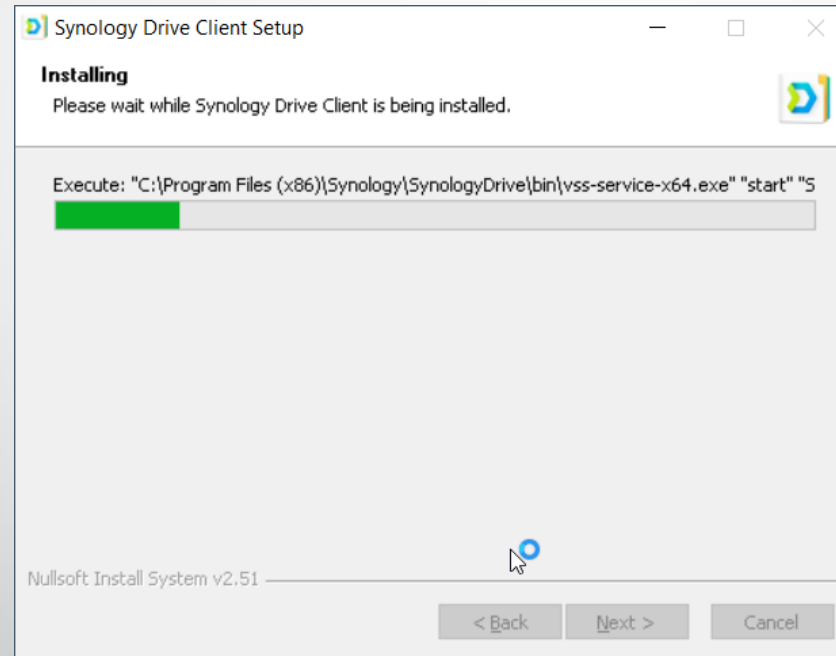

# Stisnite Next (dalje)

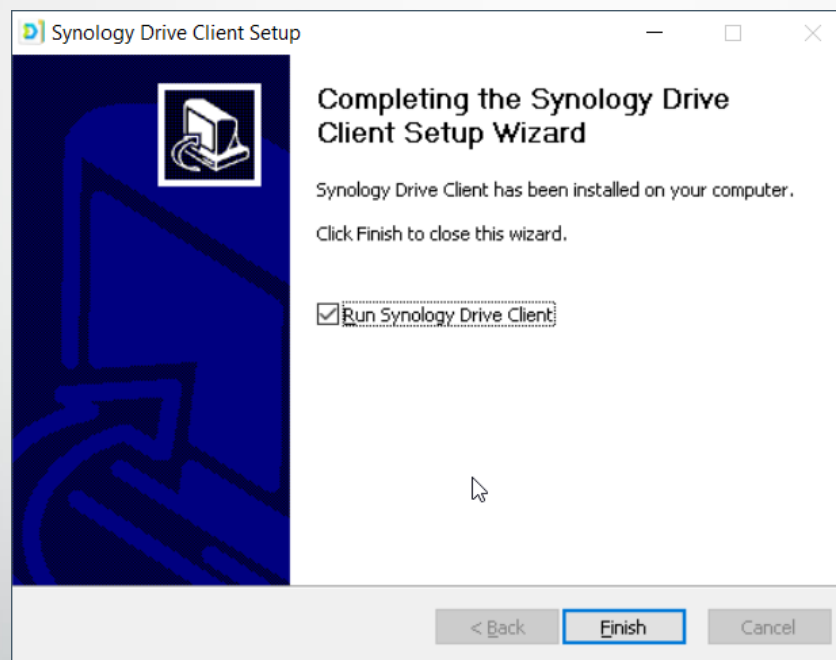

# Potvrdite da se slažete sa licencom (I Agree)

# Pričekajte dok se program ne usnima

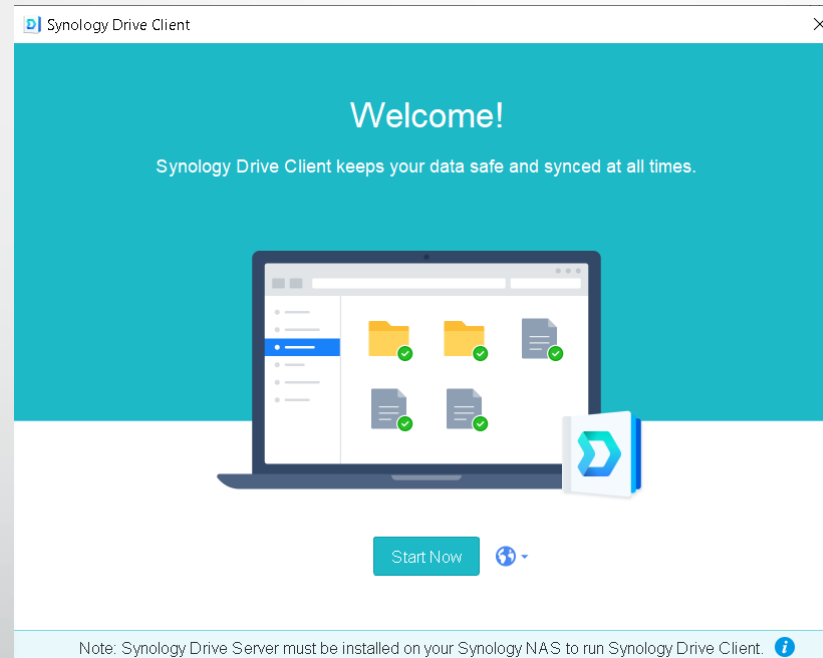

Potvrdite sa Finish . Program je sada usnimljen  
i pokrenuti će se.

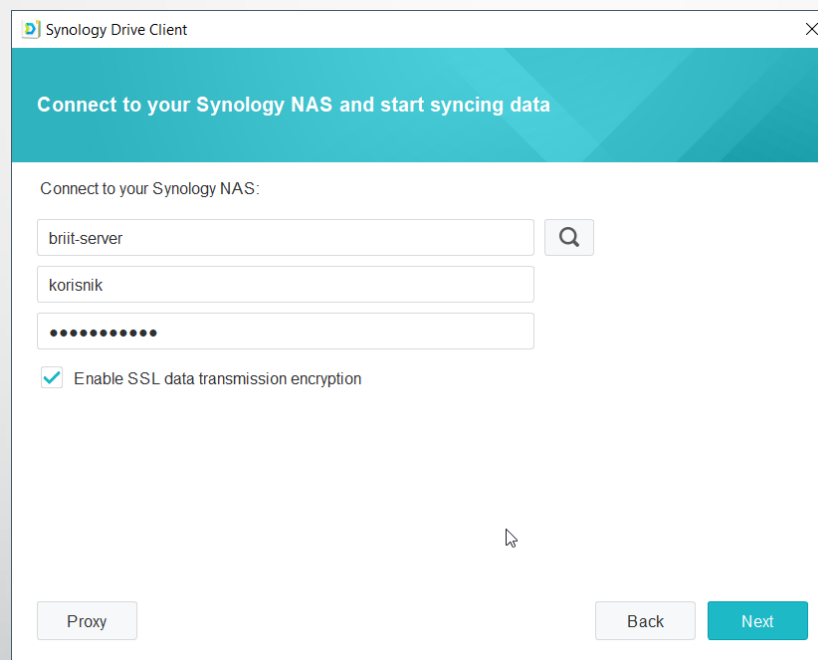

# Kliknite na Start Now – za početak postavljanja

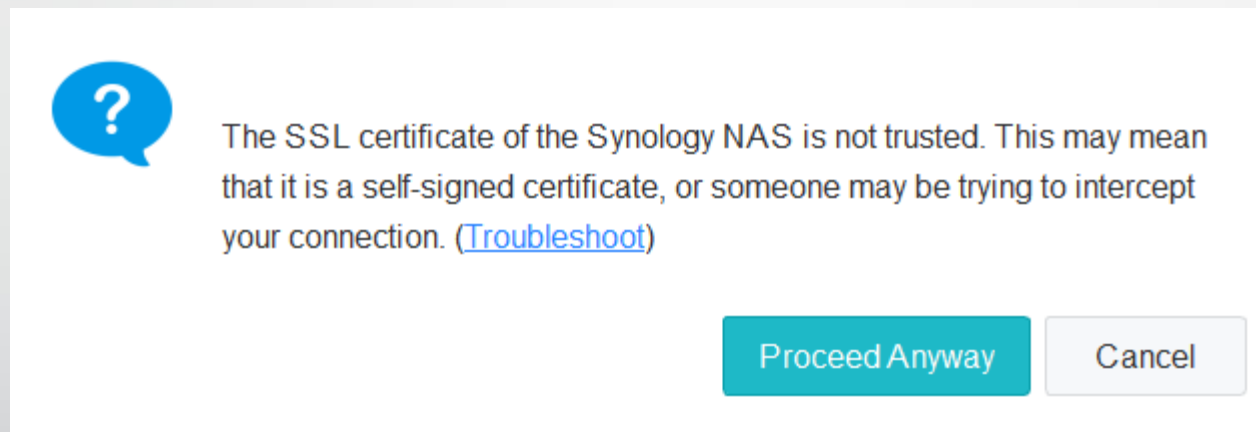

Popunite naziv servera, vaše korisničko ime i lozinku, a ako koristite izvan vaše firme, ostavite kvačicu na Enable SSL (dodatna sigurnost)

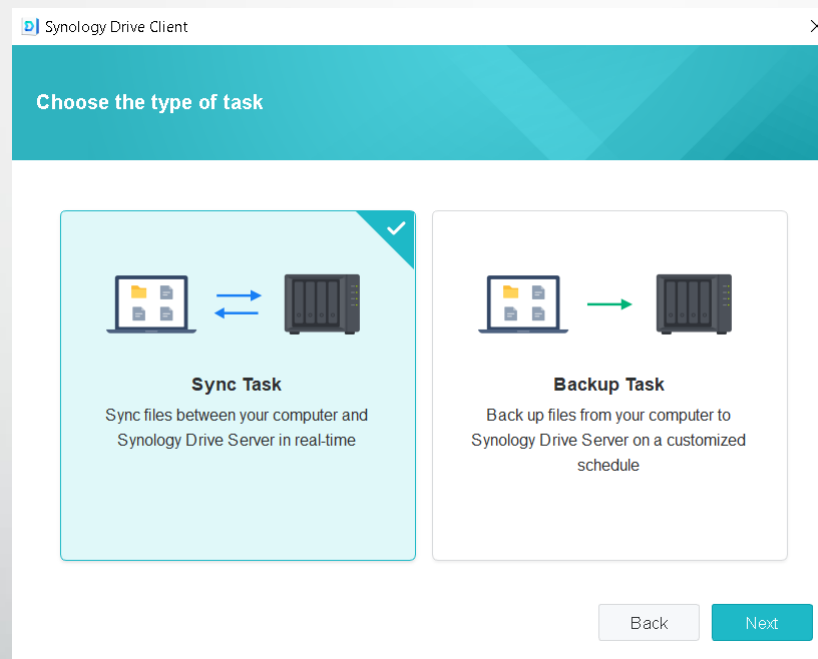

The screenshot shows the 'Synology Drive Client' window. At the top, a teal banner reads 'Connect to your Synology NAS and start syncing data'. Below this, the text 'Connect to your Synology NAS:' is followed by three input fields: 'briit-server', 'korisnik', and a password field with masked characters. A search icon is to the right of the first field. Below the inputs is a checked checkbox labeled 'Enable SSL data transmission encryption'. At the bottom, there are three buttons: 'Proxy', 'Back', and 'Next'.

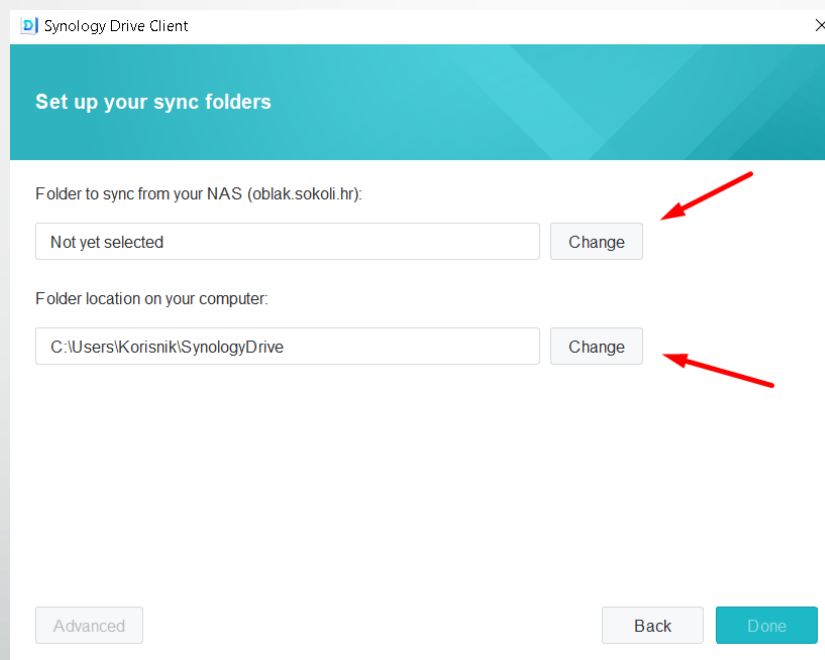

# Ukoliko se pojavi poruka o certifikatu – stisnite Proceed Anyway

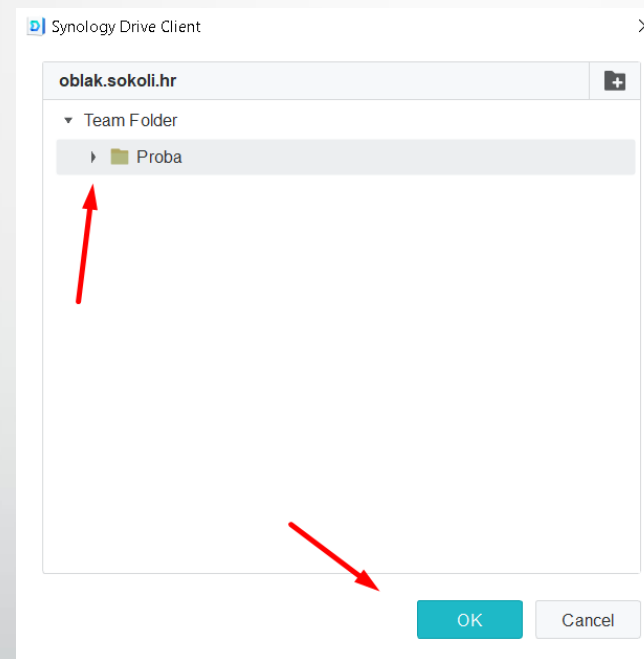

# Stisnite Next

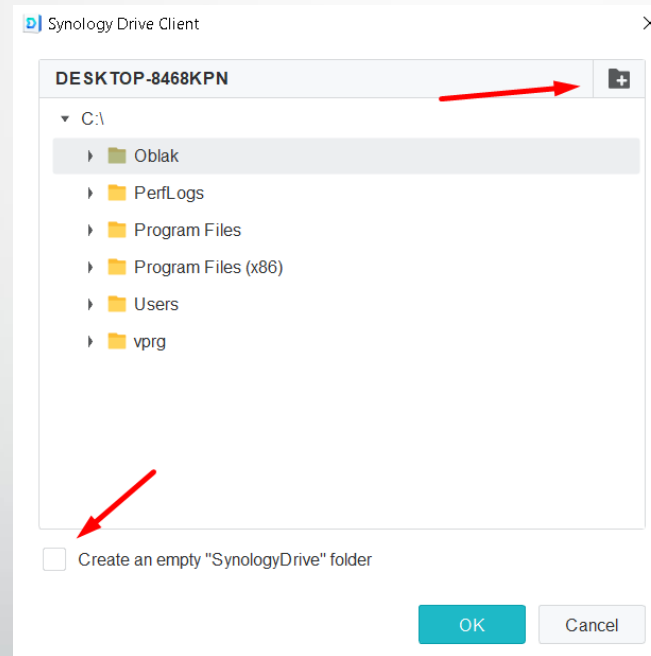

Na tipku Change odaberite svoju mapu sa servera u gornjem dijelu, te u donjem dijelu kuda želite da se ista preslikava

# Odaberite koju mapu želite preslikati sa servera kod sebe

Ukoliko želite možete odabrati drugu mapu za spremište na lokalnom računalu (i otvoriti novu sa +). Na ovom primjeru je prikazano da se sve sprema na C disk u mapu Oblak.

I konačno, ovako bi trebalo izgledati. Sve sa servera sa Vaše mape – preslikava se u Vaše računalo – na C disk u mapu Oblak.  
Obavezno isključite Enable on demand... Kada ste gotovi stisnite Done

Synology Drive Client

### Set up your sync folders

Folder to sync from your NAS (oblak.sokoli.hr):

/Proba Change

Folder location on your computer:

C:\Oblak Change

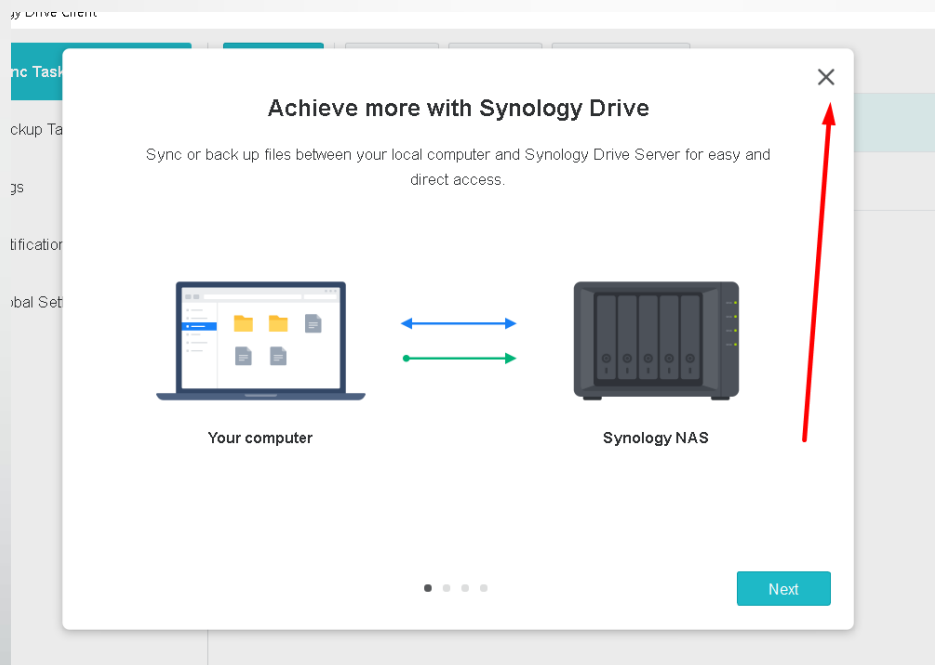

☐ Enable On-demand Sync to save disk space on your computer

Advanced Back Done

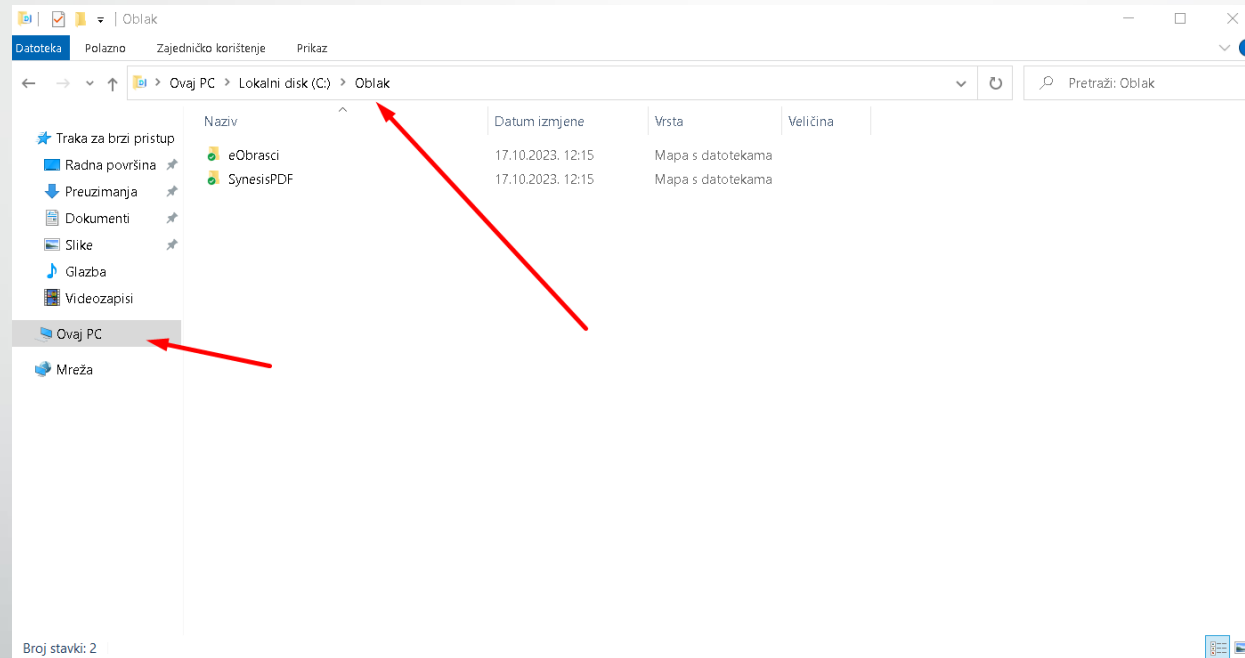

# Slijede kratke upute... Zatvorite prozor sa X

Prozor sa postavkama možete sada zatvoriti. Ako ga želite kasnije naknadno otvarati, nalazi se na alatnoj traci, na ikonama dolje desno kod sata.

Automatski kreće usklađenje sa serverom, a pregled datoteka možete uvijek otvoriti ili preko ikonice sa radne površine Synology drive ili preko trake za brzi pristup.

Hvala na pažnji!
